Tata Ryerson to invest Rs 200 cr by 2010

Press Trust of India

KOLKATA, Aug. 31. — Tata Ryerson Ltd (TRL), promoted by Tata Steel and US-based Ryerson Corp today announced major expansion plans that would entail an investment of Rs 200 crore by 2010.

"The company will double its present capacity from 1.2 million tonne to two million tonne per annum by 2010 which would attract a total investment of about Rs 200 crore," TRL managing director, Mr. Sandipan Chakravorty said.

Moreover, the company is evaluating options to have its footprint overseas and currently, both the promoters with the company's management are in the boardroom over this issue.

"By next year, I will be in a position to share some information on the overseas venture," Mr Chakravorty said.

The company would invest Rs 80 crore over the next two years to complete a new project at Faridabad and another proposed in South India.

The commissioning of the Faridabad Cold Roll and Faber processing facility would take place by January-February next year. The total investment in this project would be around Rs 40 crore.

TRL is also contemplating to foray into South India by setting up a steel plate processing plant. The company is yet to finalise the location, which would be either Chennai or Bangalore.

"We will finalise the location over next two months depending on the tax implications. That evaluation process is already in progress," projects chief, Mr SK Khasnobis said.

Currently, the company has two units in Pune and Jamshedpur.
